

ADVENTURES IN ALBA

Bestiary Volume 2 — More spooky, magical, child-safe creatures with spells and special attacks

ADVENTURES IN ALBA

Scottish fairy myth, classic fantasy adventure, gentle danger, and table rules made for brave young players.

USING SCARIER CREATURES SAFELY

Scary, not cruel

- Use shadow, fog, thunder, strange voices, and big feelings.
- Avoid gore, helplessness, or hopeless consequences.
- Give every scary creature a want that can be understood.

Creature pacing

- Round 1: show what is strange.
- Round 2: use a special attack or spell.
- Half HP: reveal the true worry.
- 0 HP: offer help, bargain, nap, or apology.

Special attacks

- Spend MP when the move changes the scene.
- Name the safe result: tangled, sleepy, startled, glittered, lost, or muddy.
- Let clever gear, spells, and kindness reduce danger.
